

WHAT IS CLAIMED IS:

1. A cigarette filter, comprising: filter sections including filter materials individually wrapped with plug wrap paper; forming paper for wrapping the filter sections integrally; and tipping paper covering the forming paper so as to connect the filter sections to a cigarette section to form a cigarette,

wherein activated charcoal and silica/alumina are contained as adsorbents in at least one of the filter materials and a space between the filter materials.

2. The cigarette filter according to claim 1, wherein the plug wrap paper or the forming paper contains the activated charcoal and the silica/alumina as the adsorbents.

3. The cigarette filter according to claim 1, wherein two filter materials are provided, and a mixture of the activated charcoal and the silica/alumina is loaded in the space between the two filter materials.

4. The cigarette filter according to claim 1, wherein two filter materials are provided, and a mixture of the activated charcoal and the silica/alumina is dispersed in one of the filter materials.

5. The cigarette filter according to claim 1, wherein three filter materials are provided, and the

activated charcoal and the silica/alumina are individually loaded in the two spaces between the three filter materials.

5       6. The cigarette filter according to claim 1, wherein three filter materials are provided, and the activated charcoal is dispersed in one filter material and the silica/alumina is dispersed in another filter material.

10       7. A cigarette filter, comprising a cigarette holder body including filter materials arranged therein, wherein activated charcoal and silica/alumina are contained as adsorbents in at least one of the filter materials and a space between the filter materials.
